

Robby Ward, PE

LICENSES & CERTIFICATIONS

Registered Professional Civil Engineer | State of California | License #C 85962

OSHA 30 Hour Outreach Training for the Construction Industry

EDUCATION

University of California, Berkeley

Bachelor of Science (BS), Civil & Environmental Engineering

EXPERIENCE

Expert | Pete Fowler Construction Services, Inc. 2023 – Present

PFCS is a team of building consultants who aid clients with all types of building problems from physical building performance to building-process issues such as planning or disputes. Specific services include: Construction Consulting; Property Inspection, Testing, Assessment & Analysis; Construction Cost Estimating & Budgeting; Construction Management & General Contracting; Construction Site Safety Training, Education & System Development; and Expert Witness, Mediation, & Testimony.

Superintendent / Project Manager | DesCor Builders 2019 - 2023

Oversaw medium to large scale commercial construction projects from budgeting through closeout, coordinating scope and buyout of new projects, and maintaining consistent communication with stakeholders. Utilized Procore Construction Management software for efficient document management, cost control, and forecasting, while handling contracts, billings, change orders, and subcontracts.

Senior Project Engineer | DPR Construction 2018 - 2019

Managed project budgets and schedules for new projects with limited information, overseeing buyout, self-perform labor, materials/equipment orders, and implementing change management practices. Utilized Primavera P6 for weekly updates to the master schedule, ensuring project milestones were met efficiently.

Project Engineer / Assistant Project Manager | Charles Pankow Builders 2013 - 2018

Supervised entry-level project engineers and managed the change order process from subcontractors to owners, fostering close relationships with owners and developers. Efficiently managed a 7-day concrete deck cycle with a hand-set formwork system, including coordination of concrete, pumps, and finishers. Conducted weekly reviews of look-ahead schedules with subcontractor foremen and analyzed self-perform field labor budgets to optimize crew sizes.
